

FEATURES

- Integrative structure design, easy installation, agile movement, no need to lay any pipelines.
- Large-power brushless DC fan generates large air flow.
- Low noise.
- Triple filter design, remove hazardous substances from fume to ensure body safety. Pre- filter and main filter can be replaced separately to make full use of filters and cut down cost.
- Built-in air cycling filtering system, avoid discharging the cool/hot air outside.
- Both air flow and arms are adjustable.

SPECIFICATIONS

Static Pressure	2200 Pa
Airflow	200m ³ /h
System Flow(including filter mechanism)	160 m ³ /h
Filtering Efficiency	0.3μm 99.97%
Power Consumption	80W
Noise	≤55dB
Dimensions	400(L)×230(W)×350(H)mm
Qty of Arms	1
Weight	About 7.8kg
